Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-21 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bosl et al. (2005/0000931) in view of Brown (6,085,921) and further in view of Kusz (4,971,212).

Bosl et al. disclose, in fig. 4, 5 and page 2, paragraph [0031], a tamper evident closure comprising a J-hook retention member or flaps 60 including a plurality of separate pleated retaining elements (the flaps could be processed to introduce fold lines, pleats or the like, see paragraph [0031]), which are arranged to engage rotational locking structure 24 of a container.

Brown teaches, in fig. 6, a tamper evident closure comprising pleated retaining elements having inwardly and outwardly folds.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made of to make the Bosl et al. closure with the plurality of separate pleated retaining elements including inwardly and outwardly folds, as taught by Brown, in order to facilitate of retaining the tamper evident band when the closure is unscrewed from the container.

In regard to claims 3-7 and 13-17, Kusz teaches, a tamper evident closure comprising a plurality of retaining elements 25, each having a leading edge 23 and a trailing edge 24.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made of modify the tamper evident closure of Bosl et al. in view of Brown with a plurality of separate pleated retaining elements, each comprising inwardly and outwardly folds with a leading edge and a trailing edge, as taught by Kusz, in order to facilitate of permitting the retaining element to pass over the locking structure when the closure is first screwed on to container with the leading edge, and of firmly engaging the locking structure when the closure is unscrewed from the container.

Response to Arguments

3. Applicant's arguments with respect to claims 1-21 and 23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
